SUMMER ACTIVITIES OF STATE P T A OUTLINED BY MRS. C. C. McDONALD

Three Major Projects Have Occupied State Organization During the Summer Season, Each Adding to Total Of Year's Successful Work

Special summer work of the Mississippi Congress of Parent Teachers has included three special features, Mrs. C. C. McDonald of Bay St. Louis, state president, stated. First, the curriculum revision program which has been pushed during the summer and which will be carried forward during the ensuing year; second, for the first time in five years a credit course in P. T. A. work was given at State Teachers College, Hattiesburg; and third, the history of the first 25 years of P. T. A. work in Mississippi is nearing completion. At the beginning of the club year the P. T. A. accepted the invitation of the state department of education to cooperate in the five year revision curriculum program and this project has been a major emphasis of Mrs. McDonald's administration. The credit course at S. T. C. was taught by a national representative, Mrs. J. K. Pettinggill of Lansing, Mich., first vice president of the National Congress of P. T. A. and a member of the faculty of Wayne University at Detroit. Mrs. McDonald taught the second half of the course assisted by various other state officers. The history of the 25 years of P. T. A. in Mississippi which celebrates the Silver Anniversary of the State organization is being compiled by Mrs. C. V. Maxwell of Pickens, state historian. Funds for the publication of the history were obtained from the birthday gifts last fall.

Another interest of the P. T. A. is in the work of Miss Edna Simmons of Jackson, director of instruction in Hinds county department of education, who this summer has been studying at Peabody preparing a bulletin to explain further and enlarge the curriculum revision program. The P. T. A., state curriculum revision committee and Peabody have combined in this work of Miss Simmons. Mrs. McDonald wrote introductory chapter of the bulletin in which she stressed the need for understanding on the part of patrons of the problems of the school. She suggested that the school begins a problem in character building which the home must carry on to completion. Active and not passive cooperation of parents with the schools is necessary for the best good of the child, she declared. This bulletin is now being revised and will be off the press in time for distribution at the state convention at Jackson, October 2-4. It is planned to present a free copy to each local P. T. A. and to sell individual copies. It is designed to use this bulletin for program material for P. T. A.'s for the last six months of their club year. The bulletin is arranged for three purposes: first, program material; second, study groups and third, narrative reading.

Mc. McDonald in her annual report to the national P. T. A. in the spring at the convention in Miami, Fla., which she attended, stated in regard to the work in the State: "Parent-Teacher work is occupying an increasingly important place in Mississippi. More interest and greater activities are evident. We are in the early stages of our curriculum revision program, but more of our parents and educators are beginning to realize what a broad and comprehensive program the parent-teacher organization is promoting."

WATER SPOUT SEEN ABOUT A MILE OFF SHORE TUESDAY

Bay St. Louis Residents See Water Formation Which Takes Rain Deluge to Pass Christian

A large water spout was observed by Bay St. Louis residents Tuesday morning forming apparently about a mile off-shore opposite the Pass Christian section on the waters of the Mississippi Sound. Those who watched the formation with field glasses reported an unusual effect created by the great mass of water held upright in the air and travelling northward.

The spout fell before reaching shore but carried with it a veritable deluge of rain which fell especially heavily on the Pass Christian beach front, creating no further damage than quite a bit of water on the ground.

Sister Mary Zita of St. Joseph's Convent, Bay St. Louis, will celebrate her golden jubilee with a high mass at 8 o'clock next Monday morning at Our Lady of the Gulf Catholic Church with Rev. A. J. Each Sunday for many years she has taught catechism at St. Joseph's chapel and many children have learned the fundamentals of their religion from her consecrated teaching.

Especially is Sister Mary Zita known to the people of Bay St. Louis through her visitation among the sick. Many death beds have been sweetened by her presence and many relatives and friends comforted by her in her visits throughout the community.

WAVELAND FESTIVAL IS SUCCESS

Week-End Event Nets Near $700 For St. Claire's Church Fund

The annual festival for St. Claire's Catholic Church, Waveland, held this past week-end on the church grounds, proved highly successful with approximately $700 netted for the church fund. All returns are not yet in so an exact statement of the fund cannot be made, it was stated.

Despite the heavy rains of early Saturday evening which threatened to hinder attendance at the festival, yet the large atendance that thronged the grounds later in the evening and the very large crowd of Sunday made the fair a success. Every game was popular and all of the sales booths "did rushing business."

Many Coast visitors, especially the New Orleans visitors in the Bay-Waveland, Lakeshore-Clermont Harbor sections, joined the local residents at the fair rounds.

Mrs. Ed C. Carrere, general chairman for the event, and her large group of workers deserve high praise for the very fine manner in which the festival was managed.

The Johnson factory located at the foot of the Blaize wharf is putting equipment into readiness for beginning operations this week, with boats going out in a few days, it was stated.

Passing of Will Rogers

In common the country mourns the tragic passing of America's beloved humorist and philosopher, Will Rogers, who perished in Alaska with his aviator friend Wiley Post.

Rogers was known for his various talents and accomplishments—as an actor, writer and humorist.

He was more familiarly known to our immediate readers for his daily message appearing on the front page of the Times-Picayune, a syndicate feature that was sought for and read daily by millions of Americans.

One can scarcely realize Will Rogers is dead—that he is no more in the flesh. We shall miss his daily message to the press that brought laughter to legions, his other humorous writings, radio addresses and last and by no means least his famous movie characterizations that have indellibly given their impress.

There was only one Will Rogers; there will be no other. His place in American life was inimitable and cannot be filled.

The writer of these lines for The Echo knew Will Rogers personally. We had visited him at his home in Santa Monica, and for every morning one solid week we had conversed with him while he filled a stage engagement in Chicago. He was most unassuming, despite his popularity, thoroughly human, and his role in American public life will remain vacant. He played it well, none other can take his place.

ESSENTIAL TO NATIONAL WELFARE

THE welfare of the United States will never be complete until the farmers of this country are secure in the possession of a standard of living that is, at least, on an equality with that achieved by other economic groups.

There is a vast untouched reservoir of buying power behind such an objective and the flood of orders that industrial companies would receive when the goal is attained will convince laborers and capitalists that there is more to the farm parity idea than a catch-phrase to snare votes.

The Echo is not wedded to any form of farm relief. The essential test is whether the income of farmers is being increased or not. We are for any schme that accomplishes this until somebody comes forth with a proposition that will do it faster.

Everybody seems to expect better business this fall—so here's hoping.

MILLIONS FOR SPORTS

THE American people will enjoy the benefits of more than $100,000,000 for parks, playgrounds, golf courses, baseball fields, tennis courts asd other sport projects.

It is estimated that the Works Progress Administration will allot that much money during the remainder of this year for the construction of such projects. Swimming pools get the greater part of the division of this money, followed by parks, and playgrounds. These are followed, although with less money, by athletic fields and golf courses.

The expenditure of this money, which will provide for the athletic diversion of millions of citizens, should improve the physical health of many Americans. Money spent like this cannot be considered as having been altogether wasted.

OUR THOUGHTS AND YOURS

THE ECHO does not expect the day to arrive when all of its readers will subscribe to all of its opinions.

Neither does this newpsaper attempt to express only those views which are generally accepted by ninety per cent of its readers. It really tries to voice opinions based upon reason, as influenced by our experience in life.

The fact that two men cannot disagree except with ill feeling is the conclusive evidence of the thin veneer of culture that civilization has put upon our barbarism. The heat with which an individual resents any thought contrary to accepted thinking is the proof positive that somewhere in the mental conclusions of the objector there is a flaw.

Well, Subscriber, if you plan to pay your subscription during August the month is getting towards the end.

WE DOUBT A "SCIENTIFIC EXPERIMENT"

A SCIENTIST on the Pacific coast, after telling of freezing a monkey to death and then reviving it, says that more than 300 persons have offered their lives to make a test of his method on human beings.

Without knowing very much about the system used by the experimentor we doubt very much if any animal or man can be frozen hard for three days and then "brought back to life." Apparently the water in animal bodies would expand upon freezing and disrupt tissue. It this happened to us we would hardly expect to be normal when some kind friend thawed us out.

THE TRUTH MUST BE KNOWN

MOST of us have faith in the willingness of the average citizen to do the right things when the truth is apparent but the hardest problem of today is the discovery of the truth.

The task is not so much the exposition of the truth to others as it is the search for and acceptance of it by ourselves. Most of us are inclined to believe that we have the right side and that the other man has the wrong. The danger comes from our ready acceptance of accepted truth without seeking to understand the other side.

THREE DIE EVERY HOUR

THREE persons meet death on the highways of the United States every hour, according to the July 1st figures of the National Safety Council, showing that 15,030 lives were lost in motor vehicle casualties during the first six months of this year.

Encouraging, however, is the news that 18 States and some of our largest cities had substantial reductions in the death rate. North Dakota, with 43 per cent, led the States, Rhode Island, Florida, Idaho, Illinois, Massachusetts, Missouri, Oregon and Utah also reporting large reductions.

Bay St. Louis and Hancock county might find it profitable to get hold of some of the Federal money that is being spent and getting some things done that will other wise be undone.

THE NEW BREAD AND BUTTER TAX

THERE are two particularly important points of public interest involved in the special chain store tax laws such as enacted in several states and proposed in many others.

First, is special or class taxation to penalize size in a specific industry, either desirable or in conformity with our constitutional ideas of government?

Second, is it wise or consistent to use as an argument for class taxation, the statement that it can be passed on to the consumer?

The whole proposition is unsound because it seeks to establish a punitive system of taxation that limits initiative, limits size, raises prices, discourages low cost service to the consumer and subsidizes inefficiency.

The punitive tax system, once established, will be extended to other "group" businesses such as banks newspapers, gas stations, etc. In each case the tax can be "passed on to the consumer" in higher costs, thus constantly compounding the cost of living.

The chain store tax is only the beginning of an inequitable, unsound and unAmerican tax system. It is a camouflaged 'soak the consumer tax."

It is difficult to understand just where the "consumer's" interest can be served by driving up retail food prices.

Not only should the public oppose all new tax-increasing schemes, but it should emphatically demand tax reduction in substantial amounts.

There is no justifiable excuse for special punitive taxes of any kind.

The fact that some residents of Bay St. Louis have greatly improved their homes by painting them ought to lead others to follow the example.

OUR PART IN WORLD PEACE

THE new era of world peace, for which so much is said, can never arrive as long as the experts, or people, of one nation are ready to suspect others every time there is a disagreement. Judgment and comdemnation should not follow until there is in hand ample evidence to support the charge.

The Echo is anxious to see the dawn of international peace. It will be a long time coming and before it comes there must exist throughout the world, on the part of all people, a willingness to be charitable towards others. As long as newspapers and experts speculate as to what other nations "intend" and insist upon being prepared for all "possibilities" the world will continue to witness armament races which will eventually bring on certain conflict.

We realize the small influence of our voice and the tiny part that the people of Bay St. Louis play in shaping world affairs. Nevertheless, in democratic countries, where the people rule, and where foreign policies are shaped, very often by selfish politicians, in accordance with the will of the people, it is necessary that the voters be well-intentioned as well as well-informed when questions arise with foreign powers.

Twenty-five cents spent in a classified advertisement often brings in dollars in return.

GOING BACK TO SCHOOL

THERE are hundreds of young people in Hancock county who must decide whether to go back to school this fall. Luckily, most of them will be wise and continue their training, but unfortunately, there are some who will turn a deaf ear to the counsel of age, and seek to make money at once.

It is, we admit, a temptation to young men and women. To get out for one's self and earn independent support is a rosy prospect until one has tried it for a decade or two. However, by that time the opportunity to go to school has vanished, and it is too late.

The Echo can do little to persuade errant pupils that their best job this fall and winter is to be found in the school, but whatever little can be done along this line we want to do. We urge all who possibly can to continue through high school and college. It means money later on; don't forget it. Even if the family burden might be lifted slightly today by the addition of another worker it will be eased more in the future years, after the process of education is completed.

Buying for cash and selling for cash might have a lot to do with making everybody get along better.

NO COMPETITION WITH US

THE average American does not realize the extent to which the British have absolutely ruled out of consideration the possibility of any war with the United States. In a recent discussion of British naval power the British naval expert, Hector C. Bywater expressed the British sentiment as follows:

"As regards British naval policy, drastic changes are plainly indicated. Whatever may have been the case in the past, there is in the future to be absolutely no competition with the United States. It has been tacitly decided by all parties in this country that the strength of the United States Navy is a matter of purely sympathetic interest to us.

"A powerful United States fleet in the Pacific is appreciated as a bulwark of peace, while no Briton outside a mental clinic would be in the least perturbed were the United States to build up a strong naval force in the Atlantic. Our sole concern with United States naval expansion lies in its possible effects on other nations."

HELP BAY ST. LOUIS PROSPER

Students, who expect to leave Bay St. Louis soon for the resumption of their studies might as well buy as much of their needs in Bay St. Louis as possible before leaving.

The merchants of this city deserve the support of our people when they offer the goods for sale at fair prices. They are the ones whose success will make possible a better community in which to live.

WHAT THE PRESS IS SAYING OF MEN AND MATTERS IN EDITORIAL EXPRESSION

OPPORTUNITY

(Clarksdale Register)

THOUSANDS of college graduates today have their diplomas and their education because the government interested itself in them. There will be more thousands next year.

That is the first answer of the National Administration to the query, "What are you doing for American youth with that $50,000,000 fund you were handed, to give it a boost "

A thousand young men and women were enabled to attend college during the year of 1934-35 because the government paid them $15 a month for work on or near the campus of nearly 2000 colleges. This coming year of 1935-36, some 250,000 will be so aided. The NYA has taken over and expanded the work started by the Federal Emergency Relief Administration last year.

This is the newest effort to answer the pressing problem that is answered in Germany by labor camps, and in Italy by the army. The answer means a chance to work one's way through the college of one's choice, studying what one wishes. The chance is given only to those who could not otherwise attend.

The plan has been tried long enough to get some idea of how it works. The University of Minnesota, for instance, graded its federal-aid students and found that 72.2 per cent of them ranked excellent or superior, while 92.8 per cent were better than average. That would seem to show that the young men appreciate the opportunity being given them.

Note that for the time being, such young men and women are removed from competition for jobs with the unemployed. The work given them at college, assistantships, community center direction, research of one kind and another, is generally work not competing with wage-earners. It is usually work that impoverished colleges would not be doing at all were it not for this youth program.

FREEZING SOLID FOR SCIENCE

(West Point Daily News Leader)

WHEN Stephen Simkhovitz, a strapping fellow in the prime of life, being only 34 years old, offered himself for science by contracting with Dr. R .S. Willard, a research chemist to be frozen solid and possibly revived many persons thought he was being very foolish.

Simhovitz said that he was prompted to "do something for humanity for a change," and to determine if there is a life after death."

There are several ways to do something for humanity and freezing may be one of them. If this human experiment aids those who are suffering from tuberculosis it is worthwhile. Even the possibility that it will be helpful to tuberculars is enough to make Simhovitz's contract a commendable act.

But if he made the contract to determine if there is a hereafter, the act is certainly ridiculous. Mr. Simhovitz or anyone else will find that out when the time comes. It is silly to try to determine it any sooner.

BIBLES MAY BE CARRIED AWAY BY THOSE INTERESTED

(Pascagoula Chronicle-Star)

IN the report of the Gideons that they placed 46,175 Bibles in hotel rooms throughout the United States and Canada last year there is a basis for the belief that the world is getting to be a more spiritual place and that the thoughts of the people are turning to religion.

But details of the report cause us to pause in our reflections. About half of the new Bibles were to replace those carried away by guests—in other words, stolen. The cynics interpret this circumstance as a sign that the world is becoming more irreverent, insisting that none but an absolutely soulless creature would steal a religious object.

There is still the further possibility that the Bibles are carried away by persons who have seen the light and who desire to seek added inspiration in the book which has been so potent an influence toward the good life throughout the ages.

L. & N. Train Change Effective On Aug. 26

Effective Monday, August 26, the L. & N. Railroad announces changes in this territory involving some of its important through trains such as No. 1, 2, 37, 38 and 133.

While the exact schedule has not been received the most important change will be in southbound train No. 37, crack New York Limited, which will arrive at Biloxi about 7:30 p. m., instead of 5:40 a. m. as at present, and No. 1 from Cincinnatti and Chicago, will arrive about 4:30 p. m., instead of 6:02 p. m. as at present.

No. 38 to New York, will be about one hour later than at present and No. 133 from New York about 30 minutes later than at present.

The change in the schedule of No. 37 will permit passengers from New York to New Orleans to make the trip of only one night on the train. The change in No. 37, formerly the Crescent Limited, will give Coast residents and visitors a later train to New Orleans as arrangements have been made to handle coach passengers to New Orleans on this train.

McNeil Island Prison, in Puget Sound, is the oldest in the Federal penal system. It will probably be enlarged into a general prison community along model lines if the government can acquire adjoining islands at reasonable prices.

It Protects Individual and Commercial Interests

TO THE ELECTORS OF THE SECOND OR SOUTHERN DISTRICT

The result of the first primary as declared by the Democratic State Executive Committee shows me to be the leading candidate for Railroad Commissioner in the Southern District, leading my nearest opponent by more than eleven thousand votes.

I deeply appreciate the confidence and trust which the people of my district have manifested in me.

To those, who by their vote and influence made it possible for me to lead the ticket in the fisrt primary, I am deeply grateful; and to those who voted for my opponents, I have no ill will, but recognize the fact that because of personal friendship and interest in other candidates for this office, they preferred to do so.

If elected, I pledge my very best efforts to secure for the people of Mississippi the greatest benefits that may be procured, in all matters coming under the jurisdiction of the Railroad Commission; and my experience has equipped me to decide these important matters in the proper way, with justice to all concerned, and due regard to the legality of orders, which must stand the tests of the courts.

In the Second Primary I respectfully, sincerely, and earnestly solicit the vote and influence of all the electors of the Southern District.

Sincerely,

C. M. (RED) MORGAN

CANDIDATE FOR RE-ELECTION
AS RAILROAD COMMISSIONER
FROM THE SOUTHERN DISTRICT.

LEWIS S. MAY, CANDIDATE FOR STATE LAND COMMISSIONER, THANKS VOTERS OF HANCOCK COUNTY

Dear Friend:

Your letter received. I sincerely thank you and all my friends for supporting me for STATE LAND COMMISSIONER. I have a nice lead in the first primary. I agree with you that I would have received more votes but for the fact that many voters were confused by the name of C. H. May appearing on the ticket as a candidate for State Treasurer. I wish to emphasize the fact that I am a candidate for STATE LAND COMMISSIONER and NOT a candidate for State Treasurer.

C. H. May, candidate for State Treasurer, is not related to me. I have no connection with his or any other race except that of Land Commissioner.

Thanking you in advance for your continued support, I am faithfully

Your friend,

LEWIS S. MAY.

We wish to thank all our workers and friends who gave so much of their time and aid to make it a success.

PACIFIC PRISON

McNeil Island Prison, in Puget Sound, is the oldest in the Federal penal system. It will probably be enlarged into a general prison community along model lines if the government can acquire adjoining islands at reasonable prices.

NOTICE OF SALE

Whereas, on the 15 day of March, 1923, Ed. L. Willets and Wife, Bernelia Willets, executed a deed of trust under the terms of which the hereinafter described land was conveyed to the Trustee named therein to secure the payment of a certain indebtedness therein mentioned and described, which said deed of trust is of record in FFL Book 1, Page 37, of the Mortgage Records in the office of the Chancery Clerk of Hancock County, Mississippi; and the undersigned was substituted as trustee in said deed of trust by an instrument of record in Mortgage Record Book 30, Page 36, of the records of said office, and

Whereas, default has been made in the performance of the conditions of said deed of trust, and the holder thereof has declared the entire indebtedness secured thereby fully due and payable and has requested the undesigned to sell said lands in accordance with the power contained in said deed of trust.

Now, Therefore, notice is hereby given that the undersigned will, between eleven o'clock in the forenoon and four o'clock in the afternoon, on the 9th day of September, 1935, at the North door of the County Courthouse in Bay St. Louis, Mississippi, offer for sale and sell to the highest bidder for cash the following described land in the aforesaid County and State, to-wit:

East half of the northwest quarter and the east half of the southwest quarter section 17 township 5 south of range 15 west.

The undersigned is advised and believes that after the aforesaid trust deed was executed the property hereinabove described was conveyed to E. J. Stockstill; and that thereafter said property was conveyed to W. C. McCrimon, who is the present owner thereof, subject to such rights, if any, as are presently outstanding under a mineral lease of said lands thereafter conveyed to Homer P. Lee, who thereafter assigned said leasehold rights to the Texas Oil Company, which is presumably the present owner thereof.

R. L. GENIN,
Trustee.

Congressional Sidelights

by

Congressman Wm. M. Colmer

SESSIONS

By the time this appears in print the First Sessin of the 74th Congress will be history, according to the predictions of most of the leaders here. As this is written, the new tax bill which has been the principal stumbling block in the way of adjournment, has been passed by both Houses and sent to conference. the only major bill that remains to be acted on by both Houses is the Guffey Coal Bill. Outside of this bill, it is just a matter of tying up the loose ends, acting on conference reports and passing a number of minor bills of a private nature. The AAA bill, the Deficiency Appropriation Act, and the Social Security bill, all of which have been tied up in conference, have now been acted on. The amendments to the TVA Act, the Banking Act of 1935, the Rivers and Harbors Act, and the holding company bill are still in conference between the two Houses to iron out differences between them. It appears certain that all of these, except possibly the holding company bill, will be enacted into law before adjournment. The fate of the holding company bill is still in doubt due to the inability of the conferees to agree, and it may be held over until next session.

* * *

This session has been much less dramatic and spectacular than the two sessions of the previous Congress and has been notable for its length as much as anything else, though there have been thirty sessions in history that were longer than this one. That this session would be more plodding and deliberate than the previous ones was to be expected, for the groundwork had all been laid by the 73rd Congress in those hectic days just after President Roosevelt took over the reins of government with the country prostrated by the depression. The course had already been set, and the job of this Congress was simply to make corrections in the light of experience and to perfect further the program that had already been inaugurated.

* * *

However, when one reviews the work that has been done at this session, he realizes that the accomplishments of the 74th Congress are by no means to be deprecated. Probably the most far reaching and forward-looking piece of legislation passed is the social security bill, providing for old age pensions, unemployment insurance, child aid, and other similar social benefits. While the bill does not go as far as many of us wanted it to, it is definitely a step forward, particularly in its acknowledgment of the social responsibility of the Government. The war against the depression was carried on through the four billion dollar work-relief bill the largest peace-time expenditure in history. Congress has done its part by enacting the program into law; the success of the plan now depends on its administration and the cooperation of the people.

MIDGET COINS

Opposition to the midget coins seems to be based on fear that they will accelerate sales tax legislation. While some states have issued tokens in fractions of a cent the Treasury Department will take no action against them, although asserting that they are infringements on the federal government's power.

PRESIDENT SIGNS BILL TO RESTORE PENSION SLASHES

Sees Distinction, However, From Case of World War Veterans

Washington, Aug. 13—Asserting that his action established no precedent for World War pensions, President Roosevelt today signed the Spanish-American war veterans' bill.

The bill restored all pensions to the dependents and the veterans of the Spanish-American war, Boxer rebellion and Phillippine insurrection at a cost estimated by the veterans' administration as $45,581,000 a year. It will return approximately 50,000 persons to the roll. Widows will gain by about $6,000,000.

The presidential signature was put on the measure a few hours before the lapse of 10th legislative day after passage. Had he not signed it by midnight, the bill automatically would have become law.

Taking cognizance of World War pension proposals and indirectly of the fact that World War veterans with nonservice connected disabilities were cut from the rolls under the 1933 Economy Act and have not been restored, Mr. Roosevelt said in a formal statement:

"The Congress on many occasions has recognized that because of the complete absence of any system or policy initiated during or immediately following the War between the States the Indian War and the Spanish-American war, and because of lack of adequate medical care from the point of view of modern standards, the veterans of these earlier wars could be compensated and taken care of only through some form of pension system.

"In the case of the World War, however the Congress at the very beginning of the war daopted an entirely new system. . . which extended to all who fought in the war additional compensation, vocational rehabilitation and the adjusted service certificates (bonus.)"

By chance, Mr. Roosevelt signed the measure which had been popularly termed the Spanish war vet-erans' bill on the anniversary of the occupation of Manila by United States troops.

SUPERVISION

The first step to give the director of the budget supervision over expenditures by emergency agencies was taken last week when the President ordered seven leading agencies to submit estimates covering future expenditures. The new order goes into effect September 15th.

SECRETS

Revised regulations designed to protect "military secrets" have been promulgated by the War Department. Moreover, certain Alaskan waters were recently proclaimed a military zone by the President.

WAR AND LEMONS

The price of lemons is up in the United States because Italy is diverting Europe's supply into Eritrea to keep Italian troops from getting scurvy.

HALF BILLION A YEAR

Present Government revenue from legal beer and liquor, estimated at half a billion dollars annually, exceeds the $449,810,000 peak revenue collected before prohibition.

CHECK "LITTLE" INCOMES

Income tax returns of the "little fellow" will be checked as a 'white collar" employment project. Heretdfore small income returns were rarely checked up.

MOTHER! don't experiment with your Child's Cold

VICKS VAPORUB

Often, "mere colds" have serious consequences. It is dangerous to neglect a cold—equally dangerous to experiment with half-way measures.

Feel safe! Use Vicks VapoRub—the proved *external* method of treating colds. No risks of constant internal "dosing," which so often upsets delicate digestions and lowers resistance when most needed.

DOUBLE DIRECT ACTION

Just rubbed on at bedtime, VapoRub fights a cold *direct*—two ways at once—by stimulation and inhalation. This combined poultice-vapor action loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion. Often, by morning the worst of the cold is over.

WASHINGTON NOTES

SUMMER is wearing away toward its close but still retains enough vigor to turn still Washington collars into limp and saturated rags. The capital is accustomed to that. The unsual feature in the situation is that some of the wilting raiment is about law-making necks. Congress remains in session, notwithstanding the springtime hope that all would be over by the middle of July. Probably senators and representatives can stand hot weather as well as anyone lese, but the task of wrestling with legislation, some of it none too popular, is enough to make anybody perspire.

* * *

The particular bit of bill-passing, not to say buck-passing, that has Capitol Hill in a sweat just now, is the matter of taxes. Upon the one hand, "we" gotta have the dough." Giving due credit to a writer for the Saturday Evening Post, the other side of the question is summed up in the statement that Americans regard taxation, either with or without representation, as tyranny. Filling the treasury with taxpayers' money, and at the same time filling the souls of the folks back home with contentment and good humor, is no small job.

* * *

Of course the income tax is a painful barb. What started out as soak the rich, expanded into soak the successful, and enlarged itself into soak almost everybody. Dull and distant rumblings presaged the gathering storm, and Congress gave the case further consideration. It now appears that exemptions in the instance of lower incomes may not be cut, and that the surtax burden may not be increased in the corresponding brackets. The Senate is scheduled to take up the matter "tomorrow," an uncertain time for which comment cannot wait. The outlook for that day is that the small earner still has a chance to remain the smaller taxpayer, a consummation devoutly to be wished.

* * *

Attention is being directed to the circumstnce that the father of an official well up in the government is on relief. Those having in charge the lending of aid to the needy, point out that the man who is being criticized adversely in this particular instance is not responsible for the welfare of everyone related to him, which is an argument hard to answer and fundamentally true yet there remains the German proverb to the effect that one parent can support ten children with less difficulty than ten children one parent.

* * *

There is no marked change in conditions in Ethiopia. The ruler of that country offers to give Italy a slice of land in return for an outlet to the ocean, but Italy laughs at the proposal and proceeds in the direction of an Abyssinian clean-up. From down toward the Cape of Good Hope comes the warning word of a statesman of the Boer War period, the substance of which is that wholesale race trouble is brewing. The slogan "Africa for Africans" is not new, and may have much justice behind it, but the world does not work out its land tenure problems on that principle. Engl and was not for the ancient Britons, but for the Teutonic tribes that have left their names in the term Anglo-Saxon. Mexico is Spanish rather than Aztec. The United States does not have an Indian House of Representatives. Right or wrong, like it or dislike it, approve or disapprove, history supports the conclusion that any specified piece of territory is "for" any group which can enter, by force or otherwise, and make the wheels go around somewhat faster than formerly. Ethiopia has little chance of affording an exception to the general rule.

* * *

The announcement that a congressman is going to quit his post at the next election and go back to the business of writing poetry, gives rise to speculation as to what sort of product he plans to turn out. Current poetry looks odd t many an eye and fails in its appeal to many a mind. Somehow, there tarries here and there the notion that a good poem cannot be written about a ded cat or a man blacking his shoes; that the number of syllables in a line is of some consequence; and that rhyming sometimes is a help. If the promised accreation to the ranks of the poets turns out to be of the old school, he may find that he has supporters as numerous as those who placed him in the discarded political station.

ACCELERATES GIFTS

The new tax bill which would subject gifts to increased taxation has caused corporation officials and large investors to give away millions of dollars worth of stock in recent months according to reports made to the Securities and Exchange Commission. Undet existing law the givers are only taxed, but under the new bill recipients would also pay from 3 to 57 per cent of the gift.

Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Thedford's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childish love of sweets. . . Mrs. C. W. Adams, of Murray, Ky., writes: "I have used Thedford's Black-Draught (powder) about thirteen years, taking it for biliousness. Black-Draught acts well and I am always pleased with the results. I wanted a good, reliable laxative for my children. I have found Syrup of Black-Draught to be just that."

BLACK-DRAUGHT

"IN CALIENTE" SCORES SMASH HIT AT THE STRAND PREMIERE

All Star Cast Is Headed By Dolores Del Rio and Pat O'Brien

Mexico, with all its beauty and color, its haunting music and exciting dances, comes to the A. & G. Theater, Sunday and Monday.

"In Caliente" is musical with a real plot, replete with humor, action and romance, and introduces several production numbers that most spectators will agree excel any of the previous efforts of Busby Berkeley, who staked the dances for this picture as well as for most of the Warner Bros. First National musicals that preceded it.

The action takes place in Agua Caliente, that "made-to-order" Mexican resort near the California border, and concerns the adventures of Pat O'Brien, who is lately of the military or naval service, and who, in the role of a hardboiled magazine editor is kidnapped and taken to the resort on a sobering up expedition by his publisher, Edward Everett Horton. There he runs into Dolores Del Rio, a Spanish dancer, who dances him away from Glenda Farrell, again portraying a blonde menace.

Leo Carillo has the role of Miss Del Rio's rascally uncle who tries to cash in on her charm. Others in the cast who do excellent work are Phil Regan, who has a special song number; Dorothy Dare, Winifred Shaw, who also sings one of the big production songs; Luis Alberni, George Humbert, William Davidson, Harry Holman, Soledad Jimenez, Herman Bing and Florence Fair.

The DeMarcos, famous dancers, make their film debut in the picture and another novelty is the specialty singing number of the Canova family.

The costumes are particularly noteworthy, and may start some new style fads.

The picture has caught the spirit and the tempo of the gay resort for which it is named, and assures a most entertaining evening.

VETERANS' HOSIPTALS TO HAVE MORE BEDS

Appropriations for additional hospital facilities at veterans' hospitals are carried in the deficiency appropriation bill. Provisions will be made at Alexandria for 100 additional beds in the general medical section for negroes to cost $100,000. At Biloxi 350 beds will be added to the domiciliary section, to cost $400,000. At Gulfport 164 beds will be added to the neuropsychiatic section, to cost $300,000.

NYE PREDICTS

Senator Nye, Independent Republican of North Dakota, predicts a third party in 1936, but thought that President Roosevelt would be reelected if he did not "swing strongly to the right."

RAIL FARES

Following the success of rate cuts on western and southern railroads a reduction of passenger fares is being considered in order to stimulate traffic elsewhere.

CONCENTRATION

The greatest concentration of military forces since the World War took place last week when approximately 60,000 troops assembled in New York and Pennsylvania for field maneuvers.

LOCAL MERCHANTS ATTEND CONVENTION AT NEW ORLEANS

Awarded Diamond Pins for Unusual Sales in This Territory

Messrs. Stevenson and Wolfe, representing the Radio & Electric Service of this city, attended the Crosley Radio and Electric Refrigerator dealers' convention held in New Orleans, by the Interstate Electric Company of that city last Friday. Over two hundred dealers attended the convention.

Mr. H. E. Richardson, assistant to Powell Crosley, President of the Crosley Radio Corportion, and Mr. George Lashley Southern Field representative as well as Mr. O. G. H. Rasch of the Interstate Electric Company who was in charge of the convention and Percival Stern, president of the Interstate Electric Company, gave interesting talks on both radio and refrigeration.

Crosley refrigerators exceeded all sales expectations, in fact, have led the field in refrigerator sales this year.

Remarkable enthusiasm was evident throughout the meeting. General discussions by the dealers from various points throughtout Mississippi and Louisiana indicated a rapidly improving basic condition in theire localities. Crops have shown a good yield and prices better. The recent discovery of oil and gas in the extreme Southern portion of Louisiana has added considerable revenue to the State as a whole. The result is that business is very definitely on the up-grade and people are buying radios in increasingly large numbers.

Both Mr. Stevenson and Mr. Wolfe were among the few to be awarded the diamond pin for unusual sales made in their territory.

ERA PUBLIC LIBRARY RECEIVES MORE BOOK DONATIONS

Next Book Review Talk To Be Given by Mrs. Pepperdene.

The next book review to be presented by the Review of the Month Club will be an account of Sophie Cleugh's novel, The Angel Couldn't Sing, given by Mrs. Kenneth W. Pepperdene. The meeting will be held on Tuesday, September the tenth at 10:30 o'clock and the usual admission fee of ten cents will be charged the audience. Mrs. Harry Da Ponte will deliver the program on Current Events.

The Hancock E. R. A. County Library solicits gifts of magazines and journals for the second reading room and for the various branch libraries scattered throughout the county.

Miss Essie Wehar has recently added seven more books to the five she lately gave the library.

David Donner has brought in three volumes which he claims to have outgrown, but the early enjoyment of which he wishes to share with other young people.

Mrs. Jennie Sellier, who lives on Spanish Trail, and who says that she is seventy-five years old, walks six or seven miles twice a month to read the library magazines. But she is unwilling to accept Bay St. Louis hospitality without making some return. She owned two books, one a collection of stories by Edgar Allen Poe, one The Old Man Of The Sea, by Compton MacKenzie, and she had intended to send them to kinspeople in the North. Her enjoyment of the magazine table changed all that however. She has given The Old Man of the Sea to the librarian, to be placed on the free shelves of the library, where anyone who wishes to may read it. And she has promised that as soon as she has finished making a copy in writing of her stories by Edgar Poe. to keep for herself, her second loved possession will be added to the first.

Somewhere, long ago, someone told a story of a widow and her mite.

LULLABY

Stars are tripping, gently slipping,
Up the East and down the West,
Softly sliding, stilly gliding,
Pick the one you like the best.

See the star shine, and the far shine
Of the little silver moon,
Hear the crickets, fairy pickets,
Sandman will be coming soon.

RUNAWAY

I couldn't stand their naggin' ways,
I couldn't stand the things they said;
I wasn't more than just sixteen,
Iwished that I was dead.
I left the house where I was born,
The hard stair carpet and the hot
Dark flowers on the walls and chairs,
I crossed a vacant lot
And in a shanty by a dump
A man was fixin' things he'd found;
I climbed a hillside where a wop
Was lyin' on the ground.
I slept beside a yellow barn,
I kissed a fat guy for a ride,
I found a dead cat in the drink,
On a flat, black tide.
